

Figure 2. Location of Northeast Fisheries Observer Program (NEFOP) observed gillnet hauls without harbor porpoise takes (blue triangles) and observed hauls with harbor porpoise bycatch (yellow circles) from June 2009 through May 2010. These are overlaid on top of the 1998 and 2010 HPTRP Management Areas (MAs) as shown in Figures 1a and 1b. The hatched areas depict Consequence Closure Areas (CCAs) as shown in Figure 1c.
