

All Species

Comparisons of Average Kept Pounds

Bluefish

Comparisons of Average Kept Pounds

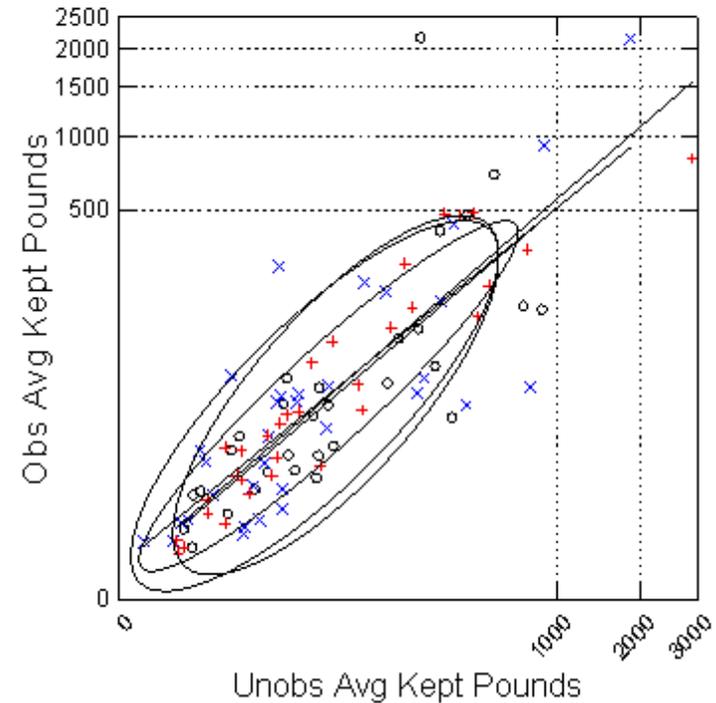

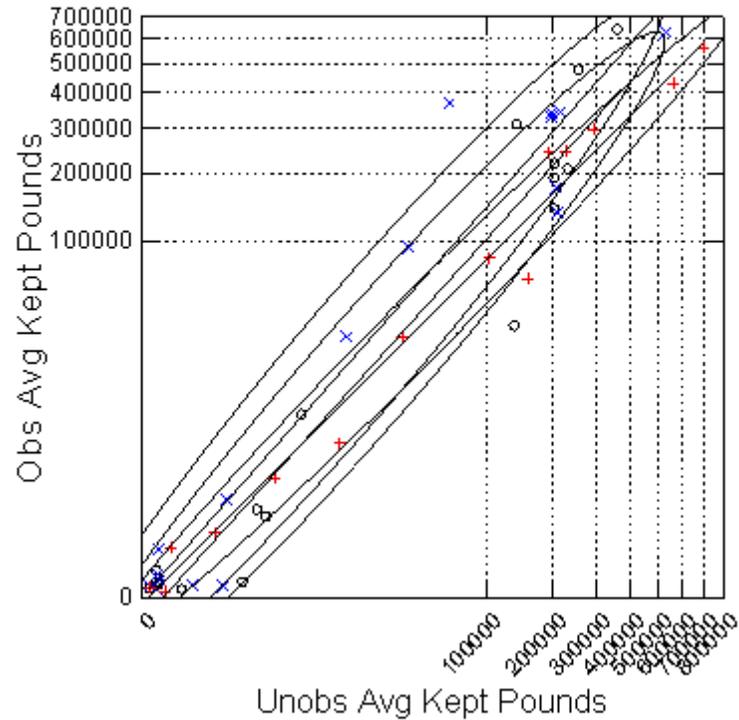

Figure 5. Comparison of average kept pounds (four root transformation used), for unobserved and observed trips for SBRM 2009 (July 2007 through June 2008; black circle), SBRM 2010 (July 2008 through June 2009; red +), and SBRM 2011 (July 2009 through June 2010; blue x), by SBRM species group. Each symbol represents the mean of an individual stratum (SBRM year, fleet and calendar quarter). Ellipse represents 68% confidence interval for each year.

Atlantic Herring

Comparisons of Average Kept Pounds

Red Crab

Comparisons of Average Kept Pounds

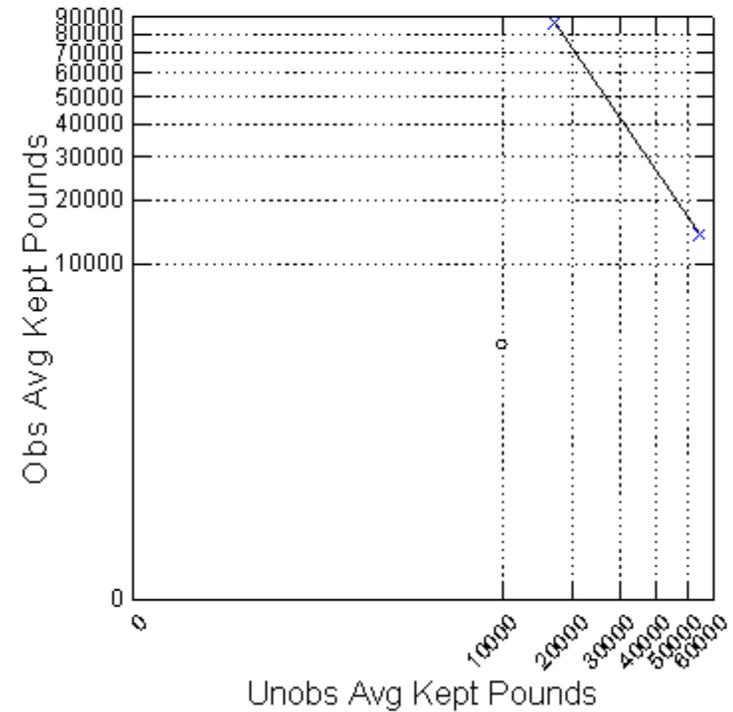

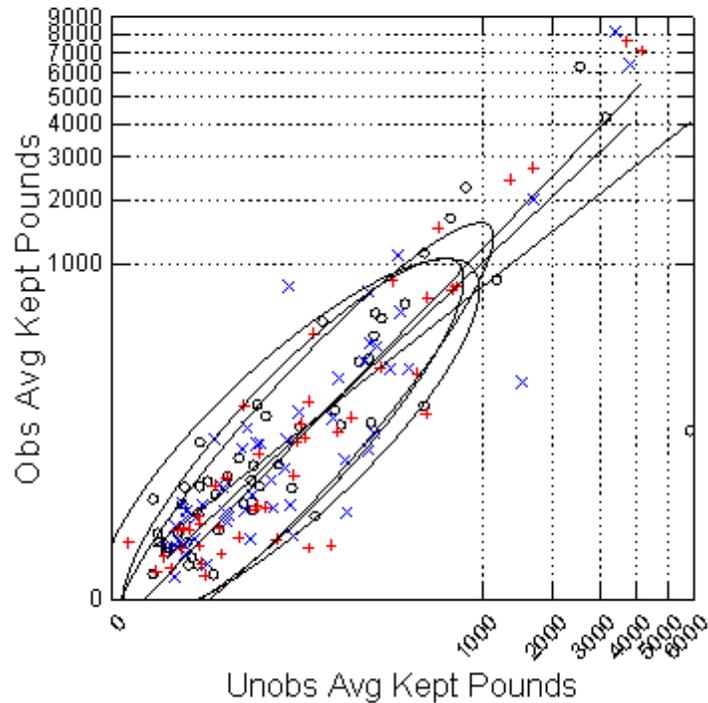

Figure 5, continued. Comparison of average kept pounds (four root transformation used), for unobserved and observed trips for SBRM 2009 (July 2007 through June 2008; black circle), SBRM 2010 (July 2008 through June 2009; red +), and SBRM 2011 (July 2009 through June 2010; blue x), by SBRM species group. Each symbol represents the mean of an individual stratum (SBRM year, fleet and calendar quarter). Ellipse represents 68% confidence interval for each year.

Fluke - Scup – Black Sea Bass

Comparisons of Average Kept Pounds

Large Mesh Groundfish

Comparisons of Average Kept Pounds

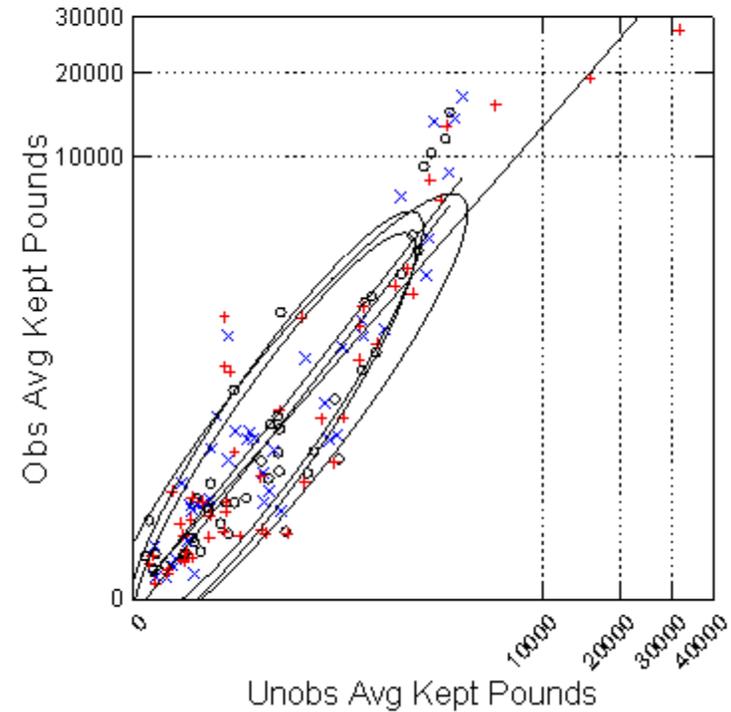

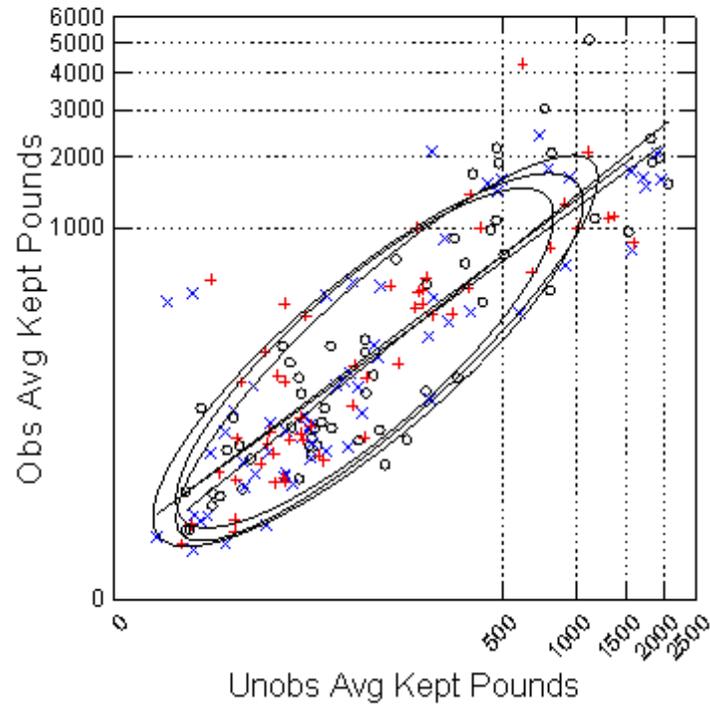

Figure 5, continued. Comparison of average kept pounds (four root transformation used), for unobserved and observed trips for SBRM 2009 (July 2007 through June 2008; black circle), SBRM 2010 (July 2008 through June 2009; red +), and SBRM 2011 (July 2009 through June 2010; blue x), by SBRM species group. Each symbol represents the mean of an individual stratum (SBRM year, fleet and calendar quarter). Ellipse represents 68% confidence interval for each year.

Monkfish

Comparisons of Average Kept Pounds

Sea Scallops

Comparisons of Average Kept Pounds

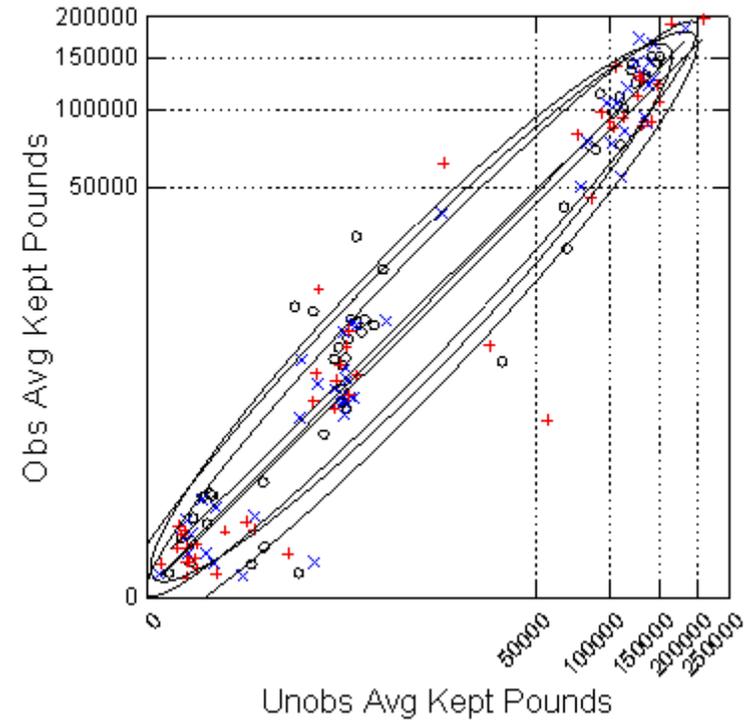

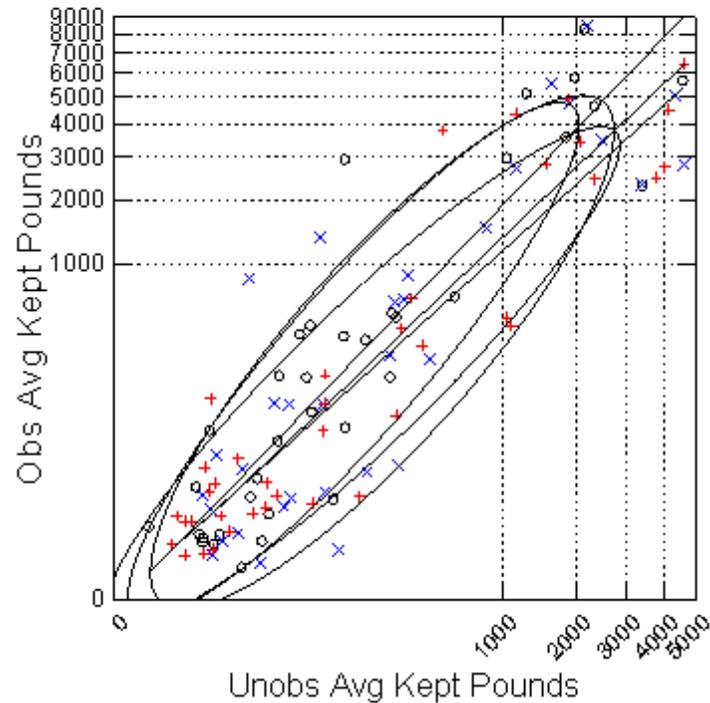

Figure 5, continued. Comparison of average kept pounds (four root transformation used), for unobserved and observed trips for SBRM 2009 (July 2007 through June 2008; black circle), SBRM 2010 (July 2008 through June 2009; red +), and SBRM 2011 (July 2009 through June 2010; blue x), by SBRM species group. Each symbol represents the mean of an individual stratum (SBRM year, fleet and calendar quarter). Ellipse represents 68% confidence interval for each year.

Skate Complex

Comparisons of Average Kept Pounds

Small Mesh Groundfish

Comparisons of Average Kept Pounds

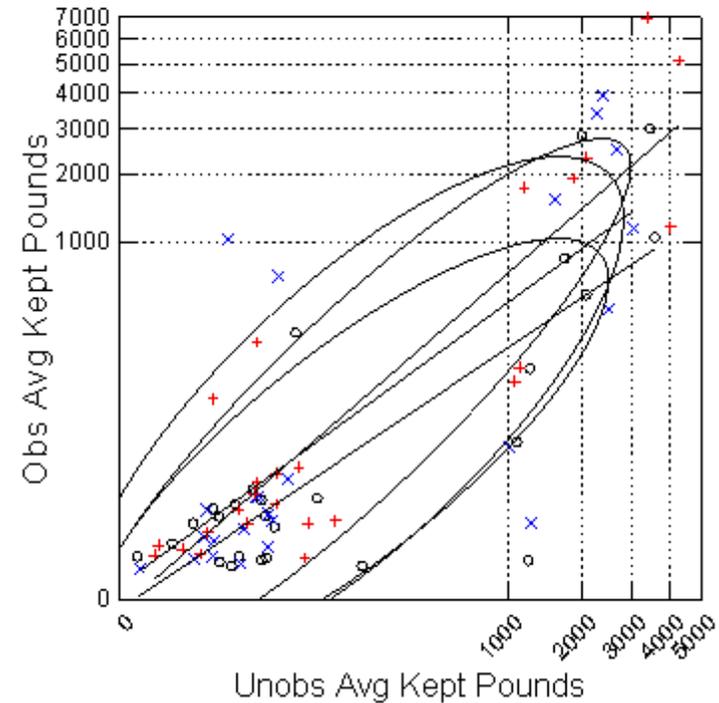

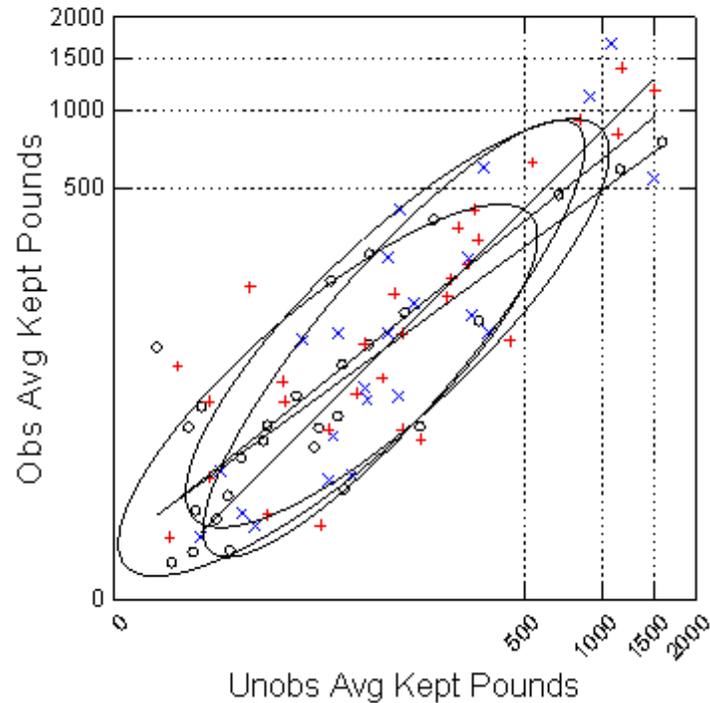

Figure 5, continued. Comparison of average kept pounds (four root transformation used), for unobserved and observed trips for SBRM 2009 (July 2007 through June 2008; black circle), SBRM 2010 (July 2008 through June 2009; red +), and SBRM 2011 (July 2009 through June 2010; blue x), by SBRM species group. Each symbol represents the mean of an individual stratum (SBRM year, fleet and calendar quarter). Ellipse represents 68% confidence interval for each year.

Spiny Dogfish

Comparisons of Average Kept Pounds

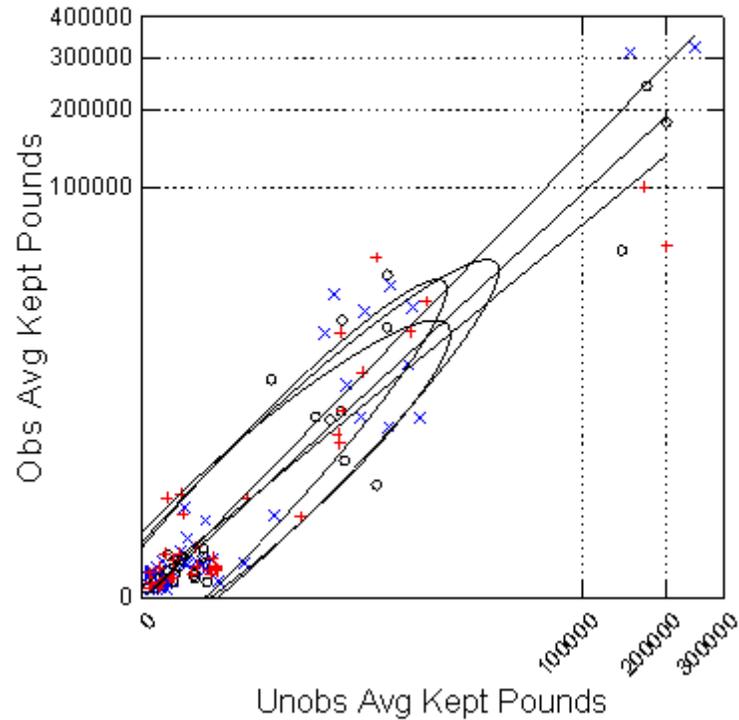

Surf Calms – Ocean Quahogs

No graph available

Figure 5, continued. Comparison of average kept pounds (four root transformation used), for unobserved and observed trips for SBRM 2009 (July 2007 through June 2008; black circle), SBRM 2010 (July 2008 through June 2009; red +), and SBRM 2011 (July 2009 through June 2010; blue x), by SBRM species group. Each symbol represents the mean of an individual stratum (SBRM year, fleet and calendar quarter). Ellipse represents 68% confidence interval for each year.

Squid-Butterfish-Mackerel

Comparisons of Average Kept Pounds

Tilefish

Comparisons of Average Kept Pounds

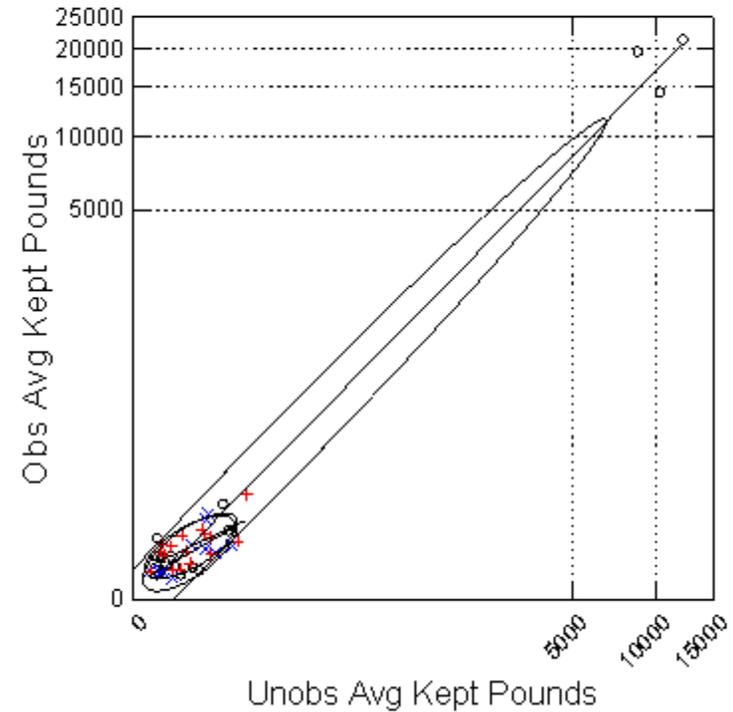

Figure 5, continued. Comparison of average kept pounds (four root transformation used), for unobserved and observed trips for SBRM 2009 (July 2007 through June 2008; black circle), SBRM 2010 (July 2008 through June 2009; red +), and SBRM 2011 (July 2009 through June 2010; blue x), by SBRM species group. Each symbol represents the mean of an individual stratum (SBRM year, fleet and calendar quarter). Ellipse represents 68% confidence interval for each year.
