

1. FIND ALL THE MAMMALS. Circle the animals that you think are mammals.
 - a. How many did you get right?
 - b. What animals were tricky for you?

2. FIND ALL MARINE MAMMALS. Circle the marine mammals in the picture.
 - a. How many did you get right?
 - b. What animals were tricky for you?

3. SEPARATE MARINE MAMMALS INTO THEIR GROUPS. Circle all the **baleen whales in one color**. Circle all the **odontocetes** (toothed whales) in **another color**. Circle the **phocids** (seals & walrus) in a **third color**.
 - a. How many did you get right?
 - b. What clues did you use to tell the groups apart?

4. IDENTIFY DIFFERENT THREATS. Circle all the **entangled** whales in **one color** and all the ones with ship strike scars in **another color**.
 - a. How many did you get right?
 - b. How do these pictures make you feel?

5. IDENTIFY THE WHALES. Match the drawing of the right whale with the real picture.
 - a. How many did you get right?
 - b. What did you use to tell them apart?
