**General Information:**

Name:

Affiliation:

Phone #:

Email:

Program Title:

Ship:

Cruise Dates:

---

---

**CTD/Equipment Information:** Seacat 19/19+ (2 supplied, 1 main + 1 backup)*check box* Seabird 9/11 (1 only) Rosette Water Sampler (1 only)Pressure, Temperature, and Conductivity Sensors standard: *Optional external sensors available upon request .*

---

---

**Mode of Data Collection:***check box* Realtime, through a conducting core cable Archived, download data after CTD retrieval

---

---

**Deployment Method:***check box(es)* Vertical

# of Stations:

 With Bongo (double oblique)

# of stations:

 Other Please specify:

---

---

**Optional Bongo Request:***check box(es)* Complete Bongo sampling setup: 2 frames, nets, flowmeters, supplies, tool, etc. 333 micron mesh nets 505 micron mesh nets Formalin, 5 gallons Quart jars (2/station), labels, logs

---

---

**Additional notes:**

---

---

**Training:***check box* 4 hours, complete

Date:

 2 hours, refresher

Time:

IMPORTANT, Please don't schedule this at the last minute!

---

---

**Special Requests:**

*Agreement: In addition to the requested CTD, we will supply software, data storage media, computer (typically ship supplied), Niskins, water sample bottles, messengers, tools, spare parts, and training. If you, the user, would like us to process the data we ask that you run preliminary at-sea data entry and processing software and collect salinity calibration water samples when possible. In return we will process, clean, audit, and apply any necessary corrections to the data and produce an NODC formatted data file as well as a cruise report containing station data listing, regional temperature and salinity anomalies, and contour plots of surface and bottom hydrographic data.*

**Please be sure to include CTD operations when filing a Cruise Plan, this form is sent to Oceanography Branch personnel only.**
