## Fishermen Inquiries

**Scallop** Pre-Trip Notification [508-495-2100](tel:508-495-2100)

**Herring, mackerel** Pre-Trip Notification [774-392-2735](tel:774-392-2735)

**Groundfish or longfin squid Pre-Trip Notification System (PTNS):**

**Internet** (preferred method) - This should be the primary means of trip notification and trip changes. The PTNS website is available at the following address: <http://fish.nefsc.noaa.gov/PTNS/>. Vessels should log in using the same username (Permit Number) and password (PIN) as they use for Fish-On-Line.

**Email** - This should be the secondary means of trip notification. The email address to submit trip notifications, trip changes, questions, or problems is [nefsc.ptns@noaa.gov](mailto:nefsc.ptns@noaa.gov).

**Phone** - This is the back means for notification. The number for notifications is 1-855-FISHES1 / 855-347-4371. At this number the PTNS Coordinator is available from 8:00AM to 5:00PM on business days. After business hours and on weekends and holidays, calls will be fielded by an answering service operator who is qualified to enter notifications, to answer frequently asked questions, and to help troubleshoot common PTNS issues. In emergency situations, the operator will immediately contact a NMFS representative for assistance.
