INTRODUCTION

The following bibliography consists of three sections: 1) anonymously peer-reviewed publications ("publications"), 2) nonanonymously peer-reviewed and non-peer-reviewed publications ("reports"), and 3) abstracts for oral presentations & poster displays ("abstracts"). The bibliography covers those works which were prepared by Northeast Fisheries Science Center (NEFSC) employees, and which have a 1997 publication date. Further, to be considered a "Center" work, a publication, report, or abstract must meet two criteria: 1) the draft manuscript/abstract must have been submitted to and cleared by the NEFSC's manuscript/abstract review system; and 2) a reprint/photocopy of the published/distributed version of the publication, report, or abstract must have been forwarded to the NEFSC's Editorial Office for library archiving and/or federal recordkeeping. Authors who were NEFSC employees at the time they composed their works, and/or who were NEFSC employees during all or part of 1997, are denoted in the list by all capital letters.

Editorial treatment of bibliographic entries is largely based on the Council of Biology Editors style manual, fifth edition. Special treatment includes the use of the abbreviation "n.p." throughout the "Abstracts" section of the bibliography to indicate that an abstract is not paginated. Also, there are foreign recipients of the issues of this series, many of whom do not use English as a primary language. Consequently, because English-language-based acronyms are particularly difficult to comprehend by non-English-using readers, the standardized abbreviations of these acronyms have been included within squared brackets immediately following the acronyms.

Availability of reprints of publications and of photocopies of reports and abstracts varies for each work. Under all circumstances, though, any initial request for a reprint or photocopy should be directed to the sole/senior NEFSC author of the work. See page ii for details. The NEFSC's Woods Hole Laboratory Library maintains an extensive, although not complete, archive for publications and reports by NEFSC authors, and may be able to supply a reprint or photocopy if the author cannot do so. Secondary requests to the library for a publication or report should be in writing (National Marine Fisheries Service, Northeast Fisheries Science Center, Wood Hole Laboratory Library, 166 Water St., Woods Hole, MA 02543-1026). Expect a significant delay in receiving a reprint or photocopy when requesting it from the library rather than from the author.

Abstracts almost always have less scientific standing and permanence than publications and reports. For these reasons, the Woods Hole Laboratory Library does not maintain an archive of such works. However, such works are covered by federal regulations on recordkeeping, and are placed in the National Archives and Records Administration's Federal Records Center in Waltham, MA. Secondary requests to the editorial office for an abstract should be in writing (National Marine Fisheries Service, Northeast Fisheries Science Center Editorial Office, 166 Water St., Woods Hole, MA 02543-1026). Again, expect a significant delay in receiving a photocopy when requesting it from the editorial office rather than from the author.
